

C7  
CANCEL

packets to said filter data stored by said network server so as to specify additional data packets to be downloaded;

whereby overhead associated with receiving the stream of data packets and downloading for storage a specified subset thereof is shared by a set of subscribers.

REMARKS

This amendment responds to the final office action.

If this amendment is entered, the pending claims will be 1-12, 14-15, 24-35, 37-39, 47-50, 52-55, and 57-66.

Claims 16 and 66 have been amended to correct a typographical error in claim 16 and to insert an antecedant clause inadvertently left out of claim 66, and also to replace the term "means" in the last paragraph of claim 66 with "a data switch".

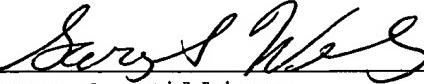

Claim 59 has been amended to replace the term "system" with "method", since it is a method claim.

Claims that were noted as being allowable, but dependent on rejected claims have been amended to put those claims in independent form. The claims amended for this reason are claims 14, 16, 37, 52, 53, 54, 55, 57, 60, 61, 62, and 63.

Respectfully submitted,

FLEHR, HOHBACH, TEST,  
ALBRITTON & HERBERT
